PROFILE

London art director and production designer for commercials, branded content and music. Twenty years on set and freelance since 2006.

Styling led to art direction, and today I look after everything the camera sees: sets, props, colour and materials, from the first recce to wrap. Because I come from wardrobe, the set and the cast always look like they belong in the same world.

Directors and producers book me because I'm reliable on long days and obsessive about detail. Every piece of set dressing changes the final frame, so I make sure each one serves the director's vision and the schedule.
